Interview Summary

Regarding:

Application Number: **10/628,891**

Filing Date: 28 July 2003

Applicant: Robert L. Demchick

Title: Recreational Vehicle Equipped with Exterior Water Outlet

Art Unit: 3753

Examiner: A. Michael Chambers

The Examiner was kind enough to schedule a telephonic interview for 24 January 2006. Today, 23 January 2006, the Examiner called me to ask if the interview could be rescheduled for today. We agreed that the interview would be approximately 2:00 PM today.

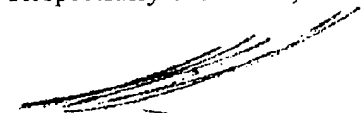

The telephone interview was from approximately 1:59 PM until approximately 2:06 PM. The Examiner's time is very much appreciated.

The bulk of the discussion was about the motivation for combining references to form the basis of the 35 U.S.C. §103 rejections. The Examiner explained that the motivation is, as stated in the application, the increased convenience of the invention. Examiner agreed that no motivation was found or cited in any reference, but that the motivation mentioned in the application was sufficient for the rejection.

I expressed the view that the application could not be the source of the motivation to combine references. The Examiner disagreed.

No agreement being reached, the Examiner was thanked for his time.

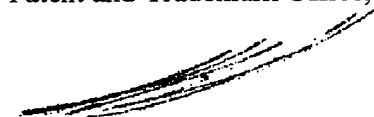

Respectfully submitted,

Paul H. Demchick
